

Since 2019....

Acknowledgements: ARC, Industry and University Stakeholders

SEAM project leaders and staff acknowledge that SEAM is funded by the Australian Research Council (ARC) under the Industrial Transformation Training Centre (ITTC) scheme (Award IC180100005) and recognizes the contributions of industry, university, and other partners. Furthermore, the SEAM Team is proud to acknowledge the Early Career Researchers who have made immense contributions to science, manufacturing and industrial outcomes.

SEAM Legacy Coin

The “Legacy Coin” is a token that reminds us of our exploration in science and engineering that was focussed on “Surface Engineering for Advanced Materials”. The Coin reminds us of people, projects, reports, meetings, conferences, dinners... and a host of emotional and professional experiences over six and a half years.

The “Thank You” face indicates the three collaborating Universities of SEAM: Swinburne University of Technology, RMIT University, and the University of South Australia. The consistent ethos of SEAM has been “Harmony”, which has led to Sustainability and Enduring Partnerships.

The reverse face the Coin has the tessellated ‘S’ graphic in the centre. This represents the many contributors and facets of the SEAM collaborations. The inner rim signifies the Australian Research Council (ARC) as the major funding agency of SEAM. The middle rim states the specific ARC program, which is the “Industrial Transformation Training Centre” (ITTC) scheme.

The SEAM Legacy Coin is a keepsake to suggest reflection on this highly successful R&D that has established a foundation for the future

SEAM's Enduring Success

More than 160 people have contributed directly to the enduring success of SEAM. These people, many of whom are listed below, include early career researchers, post graduate students, undergraduate interns, academic staff, national lab researchers, Partner Organisation staff, international collaborators, research administrators and many more. In recognition of the SEAM Team; here is our roll call of honour. Thank you.
